

The Perfect Outdoor Shutters for any application

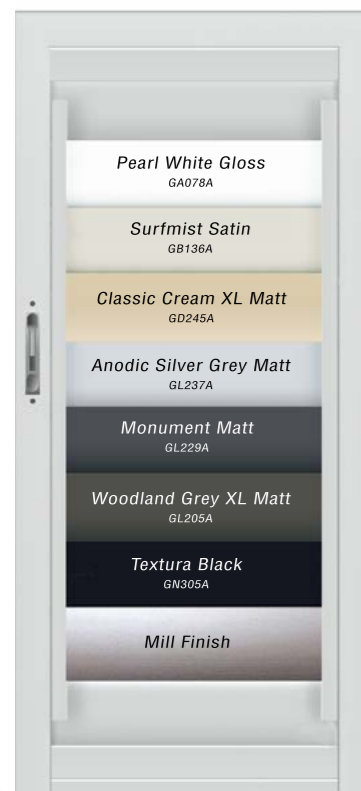

COLOUR RANGE

The aluminium frames and blades can be supplied in powder coated, anodised or timber look finishes, to the colour of your choice. 8 Standard Colours and 12 Premium Powder Coated Colours available. All other colours are POA. Short turnaround due to local supply chain.

PRODUCT GUARANTEE

Subject to the conditions of guarantee, the Company warrants the structural integrity of the aluminium profiles and all extrusions incorporated in the product for 10 years from date of supply.

Powder Coated surfaces are warranted by the paint suppliers "Dulux" or "Interpon" for 7 years from date of handover. All other components and accessories are guaranteed for a period of 12 months from date of supply. Workmanship, including installation, is guaranteed for 12 months.

The colours represented in this brochure are for marketing purposes only and may differ from actual product. Please check with your distributor before placing an order regarding colour and delivery time.

Stylish Protection from the Elements

ELIPSO is a division of OZ ROLL - ABN 91 090 863 102 - BSA 1149818 - www.ozroll.com.au

ELIPSO PREMIUM LOUVRE SHUTTERS

For over 40 years the entire range of Elipso Aluminium Screens and Louvre Shutters have been designed, manufactured and produced in Australia using materials sourced within the country. This means we are able to supply the best quality product in the industry with a far shorter turnaround time than our overseas competitors.

Being both stylish and practical the Elipso Premium Louvre Shutter has a wide range of applications and is a much sought after product throughout the Commercial and Domestic markets alike.

PERSONALISED LOUVRE WINDOW BLADE DESIGN

Our louvre windows feature a unique blade design which is built with Australian weather conditions in mind, improving rigidity and maximising weather resistance. Blades can be fitted either horizontally or vertically to create the perfect louvre windows to fit your needs. Options for both 90mm and 150mm blades available.

APPLICATIONS

Applications are wide and varied with a strong emphasis on balcony enclosures, room dividers and window protection, where privacy and sun shading is required. Available as a fixed or adjustable blade, Elipso Premium Louvre Shutters can be mounted directly to the facade of a building or supplied within its own framework.

FEATURES AND BENEFITS

PREMIUM QUALITY

Elipso by Ozroll is by far the strongest, most attractive and most flexible Louvre Shutter range in the Australian market.

PRODUCT GUARANTEE

All of the products in our range have been engineered and produced in Australia, backed with local support and a genuine Product Guarantee.

MADE IN AUSTRALIA

Designed, manufactured and produced in Australia using materials sourced within the country.

CYCLONE RATED

This product has been designed for use in cyclone areas and body corporate applications throughout QLD.

40 YEARS EXPERIENCE

Elipso Louvres have been made in Queensland and distributed around Australia for over 40 years.

STREET APPEAL

Elipso Aluminium Screens and Louvres offer a wide range of multi functional products that will enhance any home or business.

LIGHT & BREEZE CONTROL

Felt (pile) inserts around the outer perimeter of the frame to help assist in weather and light exclusion and virtually creating an anti-rattle environment.

SECTION OPTIONS

Glass sections can be inserted into panels above or below the mid-rail. Blades can be fitted Horizontally or Vertically into panel frame to create the perfect louvre solution.

UNIQUE BLADE LOCKS

Our system is the only one on the market that integrates a neatly engineered blade lock that can be built into the blades to remain aesthetically pleasing and highly functional.
